BALUCHAR PRIMARY TEACHERS' TRAINING INSTITUTE, THE VENUE:

Baluchar Primary Teachers' Training Institute, Jaganj, Murshidabad set out on its journey on the bank of the holy Bhagirathi river in the year 2004 under the Nobel patronage and guidance of Shree Shree Acharya Padma Sagar Suri Educational Society of Jaganj (SSAPSSSES).

The institute was established in 2004 with the sole aim of serving the society by developing able Teachers who would cater to the needs of the society. The institute added a new feather to its already illustrious cap, when it started B.Ed Course recognized by NCTE and affiliated to University of Kalyani. Later, after the development of educational university in Bengal in the year 2016, Baluchar primary teachers' training institute obtained its affiliation from WBUTTEPA and this illustrious journey continues

The management, the Teacher Educators and the Non-Teaching staffs of the Institute through their relentless effort have tried to serve the institute and they take pride in being a part of such a prestigious Institute.

ABOUT THE SEMINAR MODERN TRENDS IN TEACHER EDUCATION: CHALLENGES & ISSUES

Teaching has been one of the oldest and respected professions in the world. Teacher education is a program related with teacher proficiency and competence that would make them competent enough to face new challenges in the sphere of education. As per the National Council of Teacher Education Act. 1993, the teacher education is a programme of education, research of training for equipping the would be teachers to teach at pre-primary, primary, secondary and senior secondary stages in schools and includes non-formal education, part-time education, adult education and corresponding education. The changing times as well as the requirements of the society have necessitated changes in the ways of teacher preparation. The teacher education aims at

developing teachers as an instrument of social change. This high expectation of teacher education requires bringing in the educational innovations to bring reform and for overall educational development. Innovative strategies imply the development of new ideas which are disseminated and utilized. The need for educational innovations has become acute. All innovations are ultimately directed at changing qualitative and/or quantitative factors of learning outcomes. The qualitative factors could be better knowledge, more effective teaching skills, teaching competencies, character development and values. The quantitative factors could be improved learning parameters such as test results, amount of skills or competencies developed, etc. The educational innovations, reforms, changes and improvements in teacher education result in the advancement and improvement of education system.

With this backdrop, we are going to organize a One day National Seminar on "Modern trends in teacher education: challenges & issues".
